Dear Colleagues and Friends,

On behalf of the European Societies of Cardiovascular Radiology and Thoracic Imaging, it is our great pleasure to welcome you in Switzerland for the very first joint meeting in the fields Cardiovascular and Thoracic Imaging.

The conference centre will provide optimum convenience and comfort for our meeting. The centre is ideally located just off the Place des Nations, home to the European headquarters of the United Nations, and within easy reach of Geneva Airport and Geneva main train station. The World Health Organization (WHO) and the International Committee of the Red Cross (ICRC) are within a few minutes walk.

The scientific programme focuses on all aspects of Cardiovascular and Thoracic Imaging, with an emphasis on lively inter-disciplinary discussion. We will review current best clinical practice and explore future developments in our field. We will offer sessions with the WHO on radiation protection and justification of medical imaging and a large number of joint sessions of the two Societies, with a blend of standard formats and subjects and novel approaches, which we hope you will find stimulating and enjoyable. The programme encompasses state-of-the-art scientific presentations; lectures on molecular imaging, CT, MRI, interventional radiology, leadership and management, medico-legal issues, teleradiology and Big Data; inputs from cardiologists and pulmonologists on how imaging helps plan and monitor patient treatment and follow-up.

Geneva is a truly international city. In Geneva, you will be able to enjoy the pleasures of urban life, with excellent museums, varied cultural events and world-class gastronomy and the quieter aspects of our delightful countryside, beautiful lake or even a hike on a nearby mountain.

We hope that you will appreciate the more informal features of the meeting, where there will be many opportunities for discussion outside the lecture sessions, to meet colleagues from many different horizons and backgrounds, to exchange, compare and learn.

Welcome to Geneva!

08:30-09:45  📚 ESTI: Scientific Session 1 - ILD and techniques      R2

Moderators: R. Lazor, Lausanne/CH; N. Sverzellati, Parma/IT

08:30  Moderator introduction
R. Lazor, Lausanne/CH; N. Sverzellati, Parma/IT

08:32  Contrast agent accumulation patterns in fibrosing lung disease using 5D MRI (RGW 2016)
M.T.A. Wetscherek, Cambridge/UK

08:44  Increasing the conspicuity of breast cancer by using dual-energy spectral computed tomography: Initial experience
Y. Metin, Rize/TR

08:56  Evaluation, comparison and optimization of the effects of manual versus software automated protocols on radiation dose and image quality in paediatric chest computed tomography
G. Argenti, Lugano/IT

09:08  Clinical performance and confidence of ultra-low dose computed tomography compared to chest X-ray investigations for diagnosing pulmonary pathology
L.J.M. Kroft, Leiden/NL

09:20  A Deep Learning Algorithm for Classifying Fibrotic Lung Disease on High Resolution Computed Tomography
S. Walsh, London/UK

09:32  Perceived quality measurement of low-dose lung CT after retrospective neural network image enhancement
Y. Nagaraj, Groningen/NL

09:44  Discussion

08:30-09:45  📚 ESCR: Proffered Paper Session 1 - Imaging atrial chambers, valves and great vessels      R3+4

Moderators: M. Rees, Gwynedd/UK; A.W. Sauter, Basel/CH

08:30  Duration of Vortices in 4D Flow MRI Compared to Pulmonary Artery Mean Pressure
L. Crowe, Geneva/CH

08:40  Vascular thoracic outlet syndrome: A focus on Time-Resolved MR Angiography
S. Wassel, Iowa City/US

08:50  Evaluation of the mitral valve anatomy, geometry and mobility in multiple cardiac phases by Multi-Slice Computed Tomography
L. Musayeva, Baku/AZ

09:00  4D flow MRI evaluation of a new technique of valve-sparing aortic root replacement (VSARR)
V. Silvestri, Lille/FR

09:10  Intraobserver and interobserver variability in 3D printing and 3D model measurement of the aortic annulus
R. Faletti, Turin/IT

09:20  Left atrial appendage closure guided by 3D printed patient-specific models
G. Muscogiuri, Milan/IT

09:30  Low contrast CT angiography prior to TAVI procedure: Feasibility, renal safety and diagnostic accuracy for coronary tree
A. Annoni, Milan/IT

09:40  Discussion

08:30-09:45  📚 Hands-on HRCT training (BIR)  R5

Moderators: A. Madureira, Porto/PT; R. Salgado, Edegem/BE

10:00 The forgotten structure: Revisiting the pericardium  
A. Nchimi Longang, Luxembourg/LU

10:20 Imaging of Cardiac masses: A diagnostic strategy  
J. Bogaert, Leuven/BE

10:40 Belgian Waffles and French Fries: Non-invasive cardiovascular risk assessment in the 21st century  
R. Salgado, Edegem/BE

11:00 Discussion

11:15-11:30 Break

11:30-12:30 Industry sponsored satellite lunch symposium „Latest innovations for thoracic and cardiovascular CT imaging“ R2

Moderator: L. Guiral

How low can we go with ultra-low dose Chest CT?  
M.-P. Revel, Cochin Hospital, Paris/FR

Ultra-Low dose CT: Indications and best practice in thoracic imaging  
G. Ferretti, CHU, Grenoble/FR

Clinical benefits with large detector CT on Cardio-thoracic imaging  
H. Alfke, Lüdenscheid/DE

12:30-13:00 Break

13:00-14:15 Joint Session: CT tissue characterisation and spectral imaging in cardiopulmonary diseases R1

Moderators: K. Gruszczynska, Katowice/PL; X. Montet, Geneva/CH

13:00 Myocardial perfusion and late enhancement  
S. Abbara, Texas/US

13:20 Pulmonary perfusion  
M. Remy-Jardin, Lille/FR

13:40 Spectral CT  
T. Leiner, Utrecht/NL

14:00 Discussion
13:00-14:15 ESTI: Scientific Session 6 – Lung cancer II

13:00 Moderator introduction
A.R. Larici, Rome/IT; M. Silva, Parma/IT

13:02 Comparison of RECIST, iRECIST and PERCIST for evaluation of response to PD1-blockage therapy in patients with non-small lung cancer
L. Beer, Vienna/AT

13:12 Predicting Non-Small Cell Lung Cancer Recurrence Risk: Radiomics Analysis of the Tumor and Peritumoral Lung Parenchyma on Computed Tomography
T. Akinci D’Antonoli, Rome/IT

13:22 Ultrasound guided cervical lymph node sampling in the staging and management of lung cancer
J. Baren, Leeds/UK

13:32 Can an annotation tool using standardized label segmentation improve TNM accuracy in NSCLC staging?
A.W. Sauter, Basel/CH

13:42 Radiological response of second-line Nivolumab therapy correlates with cancer stadium rather than patient’s gender, histology and genetic mutations (EGFR, KRAS)
D. Cozzi, Florence/IT

13:52 Multivariate modeling for benign vs malignant diagnosis in CT guided trans-thoracic biopsies: How well can we predict diagnosis based on clinical and CT imaging information?
E.J.M. Barbosa Jr., Philadelphia/US

14:02 Opportunistic Lung Cancer CT Screening in Outpatient Service in Germany: Frequency, Predictors and Quality
D. Schneider, Heidelberg/DE

14:12 Discussion

13:00-14:15 ESCR: Proffered Paper Session 6 – MR and CT technical advances

13:00 A new approach to manage the absence of full recovery of the longitudinal magnetization between the Look-Locker blocs in MOLLI sequence: Temporal registration, in vitro and in vivo
H. Rebbah, Paris/FR

13:12 3D multimodal image fusion – combined information about cardiac morphology, coronary FFR, myocardial perfusion, and scar
J. von Spiczak, Zurich/CH

T. D’Angelo, Messina/IT

13:36 Compressed Sensing real-time cine imaging in patients with cardiac arrhythmia: Does it help to reduce mis-triggering artifacts?
F. Pontana, Lille/FR

CME ACCREDITATION

The ESTI-ESCR 2018 Joint Meeting, Geneva, Switzerland, 24/05/2018-26/05/2018 has been accredited by the European Accreditation Council for Continuing Medical Education (EACCME®) with 20 European CME credits (ECMEC®s). Each medical specialist should claim only those hours of credit that he/she actually spent in the educational activity.

Each participant can only receive the number of credits he/she is entitled to according to his/her actual participation at the event once he/she has completed the feedback form. Cf. criteria 9 and 23 of UEMS 2016.20. In order to help you issue individual certificates to each participants, please find below the breakdown of ECMEC®s per day:

24.05.2018 - 7.00
25.05.2018 - 7.00
26.05.2018 - 6.00

The EACCME® awards ECMEC®s on the basis of 1 ECMEC® for one hour of CME with a maximum of 8 ECMEC®s per day. Cf. Chapter X of UEMS 2016.20.

Through an agreement between the Union Européenne des Médecins Spécialistes and the American Medical Association, physicians may convert EACCME® credits to an equivalent number of AMA PRA Category 1 Credits™. Information on the process to convert EACCME® credit to AMA credit can be found at www.ama-assn.org/education/earn-credit-participation-international-activities.

POTENTIAL CONFLICT OF INTEREST DISCLOSURES

It is the policy of ESTI (European Society of Thoracic Imaging) and ESCR (European Society of Cardiovascular Radiology) to ensure balance, independence, objectivity, and scientific rigour in the congress programme. Knowledge of possible relationships with sponsors of any kind is mandatory in order to reinforce the educational and scientific message and to relieve any suspicion of bias. Any potential conflict of interest involving the organising committee should be made known so that the audience may form their own judgments about the presentation with a full disclosure of the facts. It is for the audience to determine whether the presenter’s external interest may reflect a possible bias in either the work carried out or the conclusions presented.

The ESTI/ESCR 2018 congress presidents, Dr. Nigel Howarth and Prof. Dr. Jens Bremerich, did not disclose any relationships.

Guideline for Speakers
- You are kindly requested to submit your presentation at least two hours before your session starts (USB sticks are recommended).
- All presentations have to be uploaded in the conference IT-system. No personal computer will be accepted for projection.
- Please be at the lecture room at the latest five minutes prior to the start of your session and identify yourself to the moderators.
- Kindly observe your exact presentation time. Each session contains enough time for discussion. Exceeding the time limit will not be accepted and the moderators are requested to stop presentations in such cases.

EPOS™ Area
ESTI/ESCR 2018 is using EPOS™, the Electronic Presentation Online System, the electronic format of the scientific exhibition developed by the European Congress of Radiology (ECR). EPOS™ offers a much greater flexibility than traditional scientific exhibits and provides better options for scientific communication.

The EPOS™ area is located on level -1, in a quiet area next to the media center. All accepted posters can be viewed online from May 24-25.

Use your own device to browse through the posters:

Industry Sponsored Symposium/Slot Attendance
Attendees of any ESTI/ESCR 2018 industry sponsored symposium/slot agree that their registration details will be forwarded to the company organising that symposium. This agreement may be cancelled at any time by writing to the ESTI/ESCR 2018 Congress Office.

Mobile Phones
Please do not forget to switch off your mobile phones before entering any of the lecture rooms.

Breaks
Complimentary coffee, tea and refreshments will be served during the official coffee breaks to all meeting delegates.

Recording
Photo-, video- or audio-recording of any sessions or presentations is not allowed without the speaker’s/organiser’s prior written permission.

Future Meeting Desk
This area - located on the entrance level - offers you an overview of future meetings in the field of radiology and related disciplines, from all over the world. Feel free to contribute flyers and posters to promote your own meetings and courses.

Meet us at booth #13
Awards
This year ESTI and ESCR honour those who have enhanced the quality of chest/cardiovascular radiology, through innovation and scientific excellence. In 2018, six (6) awards are offered on occasion of the ESTI/ESCR 2018 congress:
2x Magna Cum Laude, sponsored with 350,- Euro by MDPI Diagnostics
2x Cum Laude
2x Certificate of Merit
The best six oral presenters will be selected from the scientific/proffered paper sessions. Join the closing and award session on Saturday in room 1 at 16:00 CET. Please note that presence of the speaker at the closing session is obligatory to receive the prize.

ESCR Young Club Quiz
A radiology quiz presentation will be shown in loop on a monitor in the entrance hall. Please fill out the daily answer sheet (available at the monitor) and hand it in at the registration counter until the end of each day (Saturday only until 12:00). The quiz winners will be announced during the closing session.

Onsite Payment
Onsite payment can only be made by credit card (Visa or Mastercard) or in cash (Euro). Please be informed that no other payment facilities such as debit cards, cheques, etc. will be accepted.

Certificate of Attendance
The Certificate of Attendance can be downloaded after the congress upon entering either the ESTI or ESCR MyUserArea (depending on the system you have registered with). To enter the ESTI or ESCR MyUserArea, please login with your username in combination with your personal password.

Safety
The safety of all congress delegates and participants is of utmost importance to the Education Congress Research GmbH/ESTI-ESCR 2018. Security measures and precautions at the ESTI/ESCR 2018 venue have been tightened to ensure maximum security for all attendees. Badges must be worn visibly on the congress grounds at all time. The Education Congress Research GmbH/ESTI-ESCR 2018 reserves the right for staff to check participants’ identification upon admission to and/or inside the congress venue. Participants may at any time be requested to present adequate proof of identity in the form of a passport, driver’s license, national or military identification or student ID. Documents for the proof of identity must include a photograph and signature.

Disclaimer/Liability
Education Congress Research GmbH/ESTI-ESCR 2018 cannot accept any liability for the acts of the suppliers to this meeting or the attendees’ safety while travelling to or from the congress. All participants and accompanying persons are strongly advised to carry adequate travel and health insurance, as Education Congress Research GmbH/ESTI-ESCR 2018 cannot accept liability for accidents or injuries that may occur. Education Congress Research GmbH/ESTI-ESCR 2018 are not liable for personal injury and loss or damage of private property.
